

# Protect Yourself from Doxing

<input checked="" type="checkbox"/>	<b>The Basics</b>
<input type="checkbox"/>	Be proactive!
<input type="checkbox"/>	Patch your devices (e.g. phones, laptops, desktops, wireless routers)
<input type="checkbox"/>	Lock mobile devices and computers
<input type="checkbox"/>	Turn off Find My Phone/Find My Device functionality
<input type="checkbox"/>	Monitor logins and location data to make sure only you are accessing your accounts
<input checked="" type="checkbox"/>	<b>Social Media Accounts</b>
<input type="checkbox"/>	Don't overshare –consider what information you are posting and to whom
<input type="checkbox"/>	Limit the amount of personal information on your account
<input type="checkbox"/>	Don't share your physical location in real time
<input type="checkbox"/>	Turn off Find My Phone/Find My Device functionality
<input checked="" type="checkbox"/>	<b>Website Accounts</b>
<input type="checkbox"/>	Practice good password hygiene (complex, never re-used, etc.)
<input type="checkbox"/>	Enable multi-factor authentication on all accounts
<input type="checkbox"/>	Scrub online information when possible
<input checked="" type="checkbox"/>	<b>Review Personal Data</b>
<input type="checkbox"/>	Search for PII (email addresses, photos, phone numbers, physical address, etc.) online
<input type="checkbox"/>	Consider using virtual phone numbers and email addresses
<input type="checkbox"/>	Check for credential exposure due to data breaches
<input type="checkbox"/>	Take a Google Privacy Checkup
<input type="checkbox"/>	Consider your use of public vs. private profiles on social media accounts
<input type="checkbox"/>	Opt out of advertising personalization (Google, Apple, Microsoft, Facebook)
<input type="checkbox"/>	Blur home addresses on Google Street View, Apple Maps, etc.
<input type="checkbox"/>	Consider professional help (e.g. DeleteMe, Brightlines, SocialScout)
