Now Open: Communications Resource Desk

The Elections Group's [Communications Resources Desk](#) is online and ready to assist election officials throughout the 2024 election season.

We have ready-to-use and ready-to-edit resources [available online](#), and new and updated communications resources are coming soon! If we can assist your office by making changes to a templated resource or developing a resource tailored to meet your office's needs, get in touch using our [online form](#).

We want to assist you and your jurisdiction with items like printed posters, infographics and public-facing handouts, as well as scripts and presentation materials for community and stakeholder engagement.
